What is CHELLIS?

Challenge-based Environmental Language Learning
through Inspiring Stories

The CHELLIS project aims to provide challenge-based environmental language learning through inspiring stories for adult learners.

The project wants to raise awareness about current environmental challenges and eco-friendly topics. At the same time, CHELLIS provides an opportunity to improve language skills in English, French, German, Greek, Italian, and Portuguese.

Co-funded by the
Erasmus+ Programme
of the European Union

Aims & Objectives

What CHELLIS wants to achieve

Climate change is one of the biggest challenges in the 21st century and it affects everybody. In order to take action and slow down the process, the European Commission has launched several initiatives and participates actively in global policy discussions. In March 2020, the European Green Deal was introduced to amplify the measures already in place, foreseeing several key actions that will contribute to a climate neutral EU by 2050. The CHELLIS project contributes particularly to the objectives of the European Climate Pact as it accelerates the proposed bottom-up approach by empowering individuals to become more aware of eco-friendly actions and lifestyles, and consequently become role models of the green movement.

Six experienced partner organisations from across Europe are working on this project to develop unique resources and tools that engage learners in an interactive way.

The CHELLIS products are directed at adult learners who want to improve their language skills in English, French, German, Greek, Italian, or Portuguese while at the same time learning more about how to live an eco-friendly lifestyle and finding out how they can actively contribute to a healthier climate through easy and useful environmental actions.

"Every single one of us can contribute to a healthier climate by adopting a more eco-friendly lifestyle. The engaging and inspiring stories of CHELLIS will spark motivation and interest in this topic."

Co-funded by the
Erasmus+ Programme
of the European Union

Chellis

Results

Three CHELLIS project results will be created

CHELLIS Investigative Field Analysis

A research report with information gathered in desk research and interviews in all partner countries. Topical clusters such as pollution, waste and energy production will be examined.

CHELLIS Handbook Magazine

A reference instrument for professionals working with adult learners and migrants. This resource will feature useful guidelines, best practice examples, and recommendations.

CHELLIS Interactive Online Platform

Engaging stories reinforcing eco-friendly lifestyles for adult learners who want to improve their language skills. Available for English, French, German, Greek, Italian, and Portuguese.

"The CHELLIS stories make language learning easy and accessible by providing stories for different language levels."
